Fully integrated with Oracle's JD Edwards EnterpriseOne Homebuilder Management, KS2 Technologies' cloud-based options and sales contract management system, HomeSalesOne, offers homebuilders automated home configuration, sales, option selections, and electronic signatures via DocuSign.

Company Overview

KS2 Technologies has been an Oracle partner since 2007, helping dozens of clients with new installations, upgrades, enhancements, integrations, and managed services for JD Edwards EnterpriseOne and JD Edwards World. KS2 specializes in solutions for industries including home building, transportation, oil and gas, manufacturing, distribution, construction, land development, real estate, and more. Well known in the home building industry for its innovative solutions, KS2 provides JD Edwards implementation accelerators, integrations with leading scheduling tools, development of mobile and cloud apps for the sales office, and many other unique solutions for the homebuilding industry. KS2's B.E.S.T. project methodology minimizes risk and ensures success by providing transparency throughout the implementation process on budgets, expectations, signoffs, and timelines.

Validated Integration

JD Edwards EnterpriseOne

Oracle Validated Integration provides customers with confidence that a partner's integration with an Oracle on-premises application is functionally sound and performs as designed. This can help customers reduce deployment risk, lower total cost of ownership, and improve the user experience related to the partner's integrated offering.

Integration Overview

HomeSalesOne, a next-generation home sales application, is fully integrated with JD Edwards EnterpriseOne Homebuilder Management and the cloud. Sales personnel and design center agents are able to configure homes with real-time information from JD Edwards EnterpriseOne, selecting the lots, plans, and structural and decorative options according to pricing, availability and business rules defined by the organization. Once all selections are made, contracts and addendums can be fully integrated with popular electronic signature tools.

Integration Details

Key features of the integration between HomeSalesOne and JD Edwards EnterpriseOne Homebuilder Management include:

- Cloud-based user interface and user experience that allows prospects and customers to access HomeSalesOne on-site and in your office
- User configurable, rules-based engine for managing option inclusion and exclusion rules
- Full integration with JD Edwards EnterpriseOne Homebuilder Management
- Sales contract configuration and contracting that integrates with JD Edwards EnterpriseOne Homebuilder Management in near real-time
- An API-driven interface to enable integration with other cloud and on-premises apps

AVAILABILITY

KS2 Technologies, Inc.
1020 Mustang Drive
Grapevine, TX 76051
